Hosting a Tournament/Event Information

Numbers

- We are a 9-hole golf course, the maximum number of participants would be 56-64.
- If it is an event to raise money, it can easily manage 64 by making it into an 11 hole event with adding a putting contest and chipping contest as the extra holes for fundraising efforts.
- Any number over 36 would close the course for you to have full use.
- Any number under that would be one tee time after the other, meaning as an example, a group would tee off at 1:00 and the next would be at 1:10, then 1:20 and so on.
- We are happy to work with any size group.

Pricing

- Price would depend on what day of the week you were having the tournament/event and what time of the day you would like to have it.
- We have a weekday and a weekend price. Premium price is up to 1pm each day. For groups over 24 players, bookings during premium hours can save 5% on golf and cart or if food is to be supplied as part of package, save 10% on golf and cart. After 1pm the prices drop with a much more significant savings.
- If you would like a meal added, we would need to know what kind of meal that you would like before we could quote on that. We can offer anything from burgers to grilled salmon and chicken sit down dinners.

Carts

- We have 20 carts available to rent, so that would accommodate 40 players.
- We rent pull carts as well.
- Our course is very walkable but does have some elevated terrain; most people prefer to walk here if they can.

For Pricing Quote
